### **DETAILED ACTION**

The Amendment, filed on September 27, 2004 has been entered and is acknowledged by the Examiner.

Applicants' arguments, see Remarks pages 5, 6, filed September 27, 2004 have been fully considered and are persuasive.

#### ***Allowable Subject Matter***

Claims 12-16 and 19 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

The closest prior art of Record of U.S. Patent 4,137,477 to Krol et al. teaches baking the electrode to remove any remaining impurities as part of carbonization process instead of being performed to the pyrocarbon coating as claimed in the instant application for removing water. No prior art of record teaches or suggests an obvious motivation to modify or combine the applied teaching to obtain the claimed invention.

Regarding claim 12, the references of the Prior Art of record fails to teach or suggest the method of coating electron surface with pyrocarbon having combination of the limitations as set forth in claim 12, and specifically comprising the limitation of removing water from the pyrocarbon coating.

Regarding claims 13-16 and 19, claims 13-16,19 are allowable for the reasons given in claim 12 because of their dependency status from claim 12.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2879

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
